

# MATERIA URBANA

Industrial Collection

**styl'editions**  
more than wallpaper

## Tra Texture e Design

Materia Urbana nasce dall'incontro tra design contemporaneo e anima metropolitana. Texture materiche, superfici ispirate a cemento, pietra e metalli si trasformano in carte da parati dal carattere deciso ed elegante.

La collezione interpreta lo stile urban con un linguaggio raffinato, creando ambienti moderni, avvolgenti e ricchi di personalità. Ogni grafica è pensata per dare profondità agli spazi e trasformare le pareti in elementi d'arredo distintivi.

Materia Urbana è equilibrio tra materia, estetica e atmosfera.

## Between Texture and Design

Materia Urbana is born from the meeting of contemporary design and metropolitan soul. Textured surfaces inspired by concrete, stone, and metals become wallpapers with a bold yet sophisticated character.

The collection reinterprets urban style through a refined aesthetic, creating modern, immersive spaces full of personality. Each design is crafted to add depth to interiors and transform walls into distinctive decorative elements.

Materia Urbana is the perfect balance between texture, aesthetics, and atmosphere.

## PROTECTION TYPE II

SUPPORTO IGNIFUGO // FLAME RETARDANT BACKING

### DESCRIPTION

Il supporto offre prestazioni eccezionali per il settore contract e residenziale grazie alle certificazioni di cui gode, in particolare per la resistenza al fuoco, il trattamento antibatterico e la resistenza alle abrasioni e agli urti. È estremamente piacevole al tatto per via dell'effetto rilievo generato dal processo di goffratura che riproduce una trama tessile.

This material offers exceptional performance for the contract and residential sectors, thanks to its certifications, in particular for fire resistance, antibacterial treatment and resistance to abra-sion and bumps. It is extremely pleasant to the touch, due to the relief effect made by the embossing process which reproduces a textile texture.
